

regulation as that term is defined in § 61.3(x) of this chapter.

(b) Charges for all subelements shall be designed to produce total annual revenue that is equal to the projected annual revenue requirement for the Special Access element.

(c) Charges for an individual element shall be assessed upon all interexchange carriers that use the equipment or facilities that are included within such subelement.

(d) Charges for individual subelements shall be designed to reflect cost differences among subelements in a manner that complies with applicable Commission rules or decisions.

§ 69.115 Special access surcharges.

(a) Pending the development of techniques accurately to measure usage of exchange facilities that are interconnected by users with means of interstate or foreign telecommunications, a surcharge that is expressed in dollars and cents per line termination per month shall be assessed upon users that subscribe to private line services or WATS services that are not exempt from assessment pursuant to paragraph (e) of this section.

(b) Such surcharge shall be computed to reflect a reasonable approximation of the carrier usage charges which, assuming non-premium interconnection, would have been paid for average interstate or foreign usage of common lines, end office facilities, and transport facilities, attributable to each Special Access line termination which is not exempt from assessment pursuant to paragraph (e) of this section.

(c) If the association, carrier or carriers that file the tariff are unable to estimate such average usage for a period ending May 31, 1985, the surcharge for such period shall be twenty-five dollars (\$25) per line termination per month. As of June 30, 2000, these rates will remain and be capped at the current levels until June 30, 2005.

(d) A telephone company may propose reasonable and nondiscriminatory end user surcharges, to be filed in its federal access tariffs and to be applied

to the use of exchange facilities which are interconnected by users with means of interstate or foreign telecommunication which are not provided by the telephone company, and which are not exempt from assessment pursuant to paragraph (e) of this section. Telephone companies which wish to avail themselves of this option must undertake to use reasonable efforts to identify such means of interstate or foreign telecommunication, and to assess end user surcharges in a reasonable and non-discriminatory manner.

(e) No special access surcharges shall be assessed for any of the following terminations:

(1) The open end termination in a telephone company switch of an FX line, including CCSA and CCSA-equivalent ONALs;

(2) Any termination of an analog channel that is used for radio or television program transmission;

(3) Any termination of a line that is used for telex service;

(4) Any termination of a line that by nature of its operating characteristics could not make use of common lines; and

(5) Any termination of a line that is subject to carrier usage charges pursuant to § 69.5.

(6) Any termination of a line that the customer certifies to the exchange carrier is not connected to a PBX or other device capable of interconnecting a local exchange subscriber line with the private line or WATS access line.

§ 69.116 Universal service fund.

Effective August 1, 1988 through December 31, 1997:

(a) A charge that is expressed in dollars and cents per line per month shall be assessed upon all interexchange carriers that use local exchange switching facilities for the provision of interstate or foreign telecommunications services and that have at least .05 percent of the total common lines presubscribed to interexchange carriers in all study areas.

Federal Communications Commission

§ 69.118

(b) The charge shall be computed by the association on a semi-annual basis by dividing one-twelfth of the projected annual Universal Service Fund revenue requirement by the total number of common lines presubscribed to interexchange carriers defined in § 69.116(a). Beginning on April 1, 1989, the association shall bill and collect the charge, and disburse associated revenue, on a monthly basis pursuant to § 69.603(c).

(c) Telephone companies shall provide to the association the data necessary to compute the charge. These data shall include the number of presubscribed common lines in each study area and the number of those lines associated with each interexchange carrier serving that study area. In a study area served by a single interexchange carrier, all common lines shall be considered as presubscribed to that interexchange carrier. Information concerning presubscribed common lines shall be filed with the association on June 30 and December 30 of each year, except for the first such submission, containing presubscribed common line data calculated as of December 31, 1987, which shall be filed on August 1, 1988. Presubscribed common line data filed on June 30 shall be calculated as of December 31 of the preceding year, and presubscribed common line data filed on December 30 shall be calculated as of June 30 of the same year.

§ 69.117 Lifeline assistance.

Effective August 1, 1988 through December 31, 1997

(a) A charge that is expressed in dollars and cents per line per month shall be assessed upon all interexchange carriers that use local exchange switching facilities for the provision of interstate or foreign telecommunications services and that have at least .05 percent of the total common lines presubscribed to interexchange carriers in all study areas.

(b) The charge shall be computed by the association on a semi-annual basis by dividing the sum of one-twelfth of the projected annual Lifeline Assist-

ance revenue requirement and one-twelfth of the projected annual revenue requirement calculated by all telephone companies pursuant to § 69.104(l) by the number of common lines presubscribed to interexchange carriers defined in § 69.117(a). Beginning on April 1, 1989, the association shall bill and collect the charge, and disburse associated revenue, on a monthly basis pursuant to § 69.603(d).

(c) Telephone companies shall provide to the association the data necessary to compute the charge. These data shall include the number of presubscribed common lines in each study area and the number of those lines associated with each interexchange carrier serving that study area. In a study area served by a single interexchange carrier, all common lines shall be considered as presubscribed to that interexchange carrier. Information concerning presubscribed common lines shall be filed with the association on June 30 and December 30 of each year, except for the first such submission, containing presubscribed common line data calculated as of December 31, 1987, which shall be filed on August 1, 1988. Presubscribed common line data filed on June 30 shall be calculated as of December 31 of the preceding year, and presubscribed common line data filed on December 30 shall be calculated as of June 30 of the same year.
